

# Financials

## Financial Transparency

EverythingAI Foundation was incorporated in late 2025 and began program operations in 2026. As a newly established nonprofit organization recognized as tax-exempt under Section 501(c)(3) of the Internal Revenue Code, the Foundation currently has limited financial activity.

We are committed to transparency, accountability, and responsible stewardship of charitable resources as we build the Foundation's programs and operations.

## Current Financial Status

During this initial phase, financial activity primarily relates to organizational setup and early operational readiness. As such, comprehensive historical financial statements are not yet available.

At this stage, the Foundation does not publish detailed financial summaries, as doing so would not accurately reflect a full fiscal year of operations.

## Use of Funds

Initial funds are used exclusively to support the Foundation's charitable and educational mission, including:

- Organizational formation and compliance
- Development of Founder's Network, foundational digital platforms and tools
- Design and preparation of founder accelerator programs and cohorts
- Community engagement and outreach
- Essential R&D, administrative and operating expenses

The Foundation does not distribute profits and does not provide private financial benefit to founders, directors, officers, or donors.

## Governance and Oversight

EverythingAI Foundation's finances are overseen by its Board of Directors, which is responsible for ensuring appropriate financial controls, compliance with nonprofit requirements, and alignment with the Foundation's mission.

## Future Financial Disclosures

Following completion of the Foundation's first full fiscal year of operations, summary financial information and required IRS filings, including Form 990 or other applicable filings, will be made available in accordance with federal and state regulations.

If you have questions regarding the Foundation's financial practices, please contact:
